

SPICER HEAVY SYSTEMS ASSEMBLY DIVISION
LANCASTER, PENNSYLVANIA

Spicer Heavy Systems Assembly Division of Lancaster, is a division of the Dana Corporation. It assembles Class 8 heavy truck chassis. The facility is certified to ISO 14001.

ENVIRONMENTAL PERFORMANCE

Past Accomplishments

Spicer Heavy Systems has demonstrated its commitment to environmental performance in the areas of reduced solid waste and reduced discharges to water. Since 1997, the facility has:

- **Reduced hazardous waste** by implementing a program to recycle fluorescent light bulbs.
- **Reduced discharges to water and vulnerability and potential for release** by enclosing waste metal chips and barrels until they can be recycled.

Future Commitments

Spicer Heavy Systems also committed to continued environmental improvement through reducing hazardous waste and solid waste. By 2003, the facility will:

- **Reduce hazardous waste** by expanding the existing recycling program to all fluorescent light bulbs.
- **Reduce hazardous waste** through increasing the number of batteries recycled by 20%
- **Reduce solid waste** by implementing a recycling program for plastic yoke caps used on rear axles. This recycling program will capture 80% of these caps.
- **Reduce solid waste** by implementing a recycling program for plastic drink containers.

COMMUNITY OUTREACH

Spicer Heavy Systems' human resource manager receives, documents, and responds to communications from external parties regarding the facility's environmental management system and environmental performance. The facility uses local newspapers to inform community members of matters that affect them, and the facility will use these newspapers to distribute its annual performance report.
